SUMMARY

Aspiring Full Stack Developer with hands-on experience building responsive web applications and data-driven solutions using HTML, CSS, JavaScript, SQL, and REST APIs. Skilled in frontend development, backend fundamentals, API integration, and data analysis using tools such as Power BI, Tableau, MySQL, and PostgreSQL. Developed practical projects including interactive web applications and data analytics dashboards, demonstrating strong problem-solving, debugging, and analytical skills. Passionate about creating user-focused digital solutions, learning new technologies quickly, and contributing to innovative development teams in fast-paced environments

TECHNICAL SKILLS

PROFESSIONAL EXPERIENCE

Records Manangement Intern Steve Biko Academic Hospital	04 -April 2024 - 31 Mar 2025
◦ Managed and tracked high-volume record movements using SAP, improving traceability and operational visibility. ◦ Processed and organised 80+ records daily, achieving full compliance with filing and retention standards. ◦ Retrieved and prepared 70+ records daily for internal teams and auditors, ensuring efficient service delivery. ◦ Conducted routine audits to identify discrepancies and maintain data integrity. ◦ Strengthened cross-department relationships to improve workflow turnaround and service efficiency.	

EDUCATION

Rosebank College Diploma in Public Relation	Feb 2018 - Dec 2020
Silamba Secondary School Grade 12 / National Senior Certificate	Jan 2013 - Dec 2017

- Key Learning Areas:
- App Strategies & The SDLC
- GitHub & Collaboration
- HTML, CSS, JavaScript basics
- Principles of UX Design, Layouts & Transitions
- Data Management and Analysis
- User Centric App Development
- Backend Development (Intro + API Building)
- AI in Development & Business Strategies

PROJECTS

- **Contact Book App**

Created a web application to fetch and display contact details from the IT Varsity database via secure API key integration. Strengthened skills in JavaScript, HTML, CSS, REST API handling, and JSON data parsing.

- **Zoo App**

Built an interactive animal information platform featuring categorized listings, integrated weather features and user feedback functionality. Applied object-oriented programming principles, responsive design techniques, and dynamic DOM manipulation.

- **Data cleaning and Exploratory Data Analysis on SQL (Covid 19 World wide layoffs)**

Cleaned, analysed, and transformed raw datasets using SQL, performed exploratory data analysis (EDA) to identify trends and insights, Built interactive dashboards in Power BI and documented SQL queries and analytical processes.

STRENGTH

- Fast learner and adaptable in technical environments.
- Strong attention to detail and debugging.
- Time Management and collaborations.
- Eager to grow through immersive, hands-on training
- Reliable Internet.
- Coding and analytical Thinking
- Creativity

CERTIFICATION

Gauteng Provincial Government Department
Of Health
Records Management Training Certificate

2024
